

Climate Transition Summit |2025 |

July 2025 | Fairmont Windsor Park | Windsor, UK

The Event

The Climate Transition Summit 2025 converges the world's foremost experts in environmental finance and sustainable investing, fostering a powerful synergy of knowledge, innovation, and forward-thinking strategies.

Overview

The event is a critical gathering for family offices, institutional investors, policymakers, and thought leaders who are at the forefront of climate-responsive investing. It's an opportunity for attendees to engage in discussions, exchange ideas, and forge new pathways in the pursuit of environmental sustainability and financial resilience. The event promises to be a beacon of inspiration and action, driving the global agenda towards a more sustainably secure future.

Over two days, delegates have the opportunity to:

- Engage with a network of peers deeply invested in climate change and sustainability, fostering collaboration and shared learning.
- Gain valuable insights on navigating the complexities of climate-responsive investments and evolving global policies.
- Explore innovative strategies to managing climate-related risks in investment portfolios.

High-level

The event boasts an exclusive audience comprising top-tier leaders from family offices, institutional investment firms, environmental agencies, and policy-making bodies from across the globe.

Exclusive

The event is structured to ensure a focused and enriching experience, with a balanced mix of presentations, panel discussions, and networking opportunities. This format promotes in-depth dialogue and meaningful interactions among attendees, prioritizing engagement and the exchange of ideas.

The Attendees

Family offices, institutional investors, environmental agencies and policy-making bodies from across the Globe will be in attendance.

Day 1

11:00 - 13:00

Registration & Networking Lunch

13:00 - 13:10

Chairman Opening Remarks

An introduction to the key themes and goals of the event, setting the tone for insightful discussions ahead.

13:10 - 13:50 | Panel Discussion

Climate Change and the Urgency for Investment Action

Achieving net-zero presents immediate challenges that demand focused attention, particularly as we approach the 2030 checkpoint. This session will explore the effects of new regulations and climate policies on investors, highlighting the need for transparency and the ongoing battle against greenwashing. It also aims to unpack the reasons behind 2024 being marked as a crucial year for climate action, offering insights into the collaborative efforts required for environmental sustainability.

13:50 - 14:30 | Fireside Chat

The Impact of Political Will on Climate Initiatives

Lord Zac Goldsmith, a key figure in British politics and environmental advocacy, brings a wealth of experience to discussions on climate change and sustainability. This conversation will delve into the crucial role of political will in addressing climate challenges, drawing from Lord Goldsmith's extensive career and contributions to environmental efforts. Attendees will gain a deeper understanding of the interplay between politics and environmental progress, highlighted by Lord Goldsmith's perspectives and experiences.

14:30 - 15:00

Networking Break / One-to-One Meetings

15:00 - 16:00

Roundtable Discussions

Table 1: Protecting our Oceans: Investing in the Future of Aquaculture

Table 2: Asset Manager Showcase: Smart Protein - Our Approach to Plant-Based Proteins

Table 3: Decarbonizing Supply Chains: Opportunities in Green Logistics and Sustainable Transport

16:00 - 16:40 | Panel Discussion

Climate-Related Risks in Investment Portfolios: (Physical Vs Transition?)

Climate change poses significant risks to investment portfolios, such as policy shifts and the potential for stranded assets. This session will delve into evaluating both physical and transitional risks, the integration of climate data into risk assessment models, and the challenges faced in this process. Additionally, practical strategies for investors to manage and reduce these climate-related risks in their portfolios will be discussed.

16:40 - 17:00 | Keynote Presentation

Green Buildings: An Investor Perspective

17:00 - 20:00

Networking Cocktail Reception

Day 2

09:00 - 09:40 | Panel Discussion

Climate Tech: Catalysing Change Through Innovation and Investment

Climate Tech is reshaping our approach to environmental challenges by combining new technologies with smart investments. We'll cover the latest trends, the impact of new technologies on climate change, and the challenges in scaling them.

09:40 - 10:00 | Keynote Presentation

Revolutionizing Mobility: Electric Vehicles and Battery Innovations

10:00 - 10:30

Networking Break / One-to-One Meetings

10:30 - 11:20 | Panel Discussion

Green Finance Revolution: Unlocking the Potential of Renewable Energy Markets

The renewable energy sector stands at a pivotal juncture, with investments flowing into innovative technologies and markets worldwide. This discussion will chart the current landscape of renewable energy investments, highlighting the technologies drawing significant funding.

11:20 - 11:40 | Keynote Presentation

Forestry: An Investor Perspective

11:40 - 12:30 | Panel Discussion

Transition Strategies: From Preparedness to Practice

The path to a net-zero portfolio is fraught with complexities, demanding nuanced strategies and careful decision-making. This discussion will unpack the intricacies involved in shifting towards sustainable investment practices, highlighting the debate between adopting asset class-specific measures versus a comprehensive, portfolio-wide approach.

12:30 - 14:00

Networking Lunch

14:00 - 14:50 | Panel Discussion

Wealth in a Warming World: Family Offices & Impact Investing

Family offices stand at the forefront of the fight against climate change, leveraging impact investing to foster meaningful change. This discussion centers on the real-world experiences of those who have steered their investments towards positive environmental impact. The conversation also underscores the importance of collaboration, showing how family offices can work alongside governments and corporations to boost the impact of their climate initiatives.

14:50 - 15:10 | Keynote Presentation

The Circular Economy and Conscious Capital: A Family Office's Journey into Sustainable Fashion and Consumer Goods

15:10 - 15:30 | Keynote Presentation

Biodiversity Conservation as an Imperative for Investors

15:30 - 16:20 | Panel Discussion

The Future of Food

This discussion zeroes in on the critical challenge of sustainably meeting global food demands. It explores the frontier of food innovation, spotlighting emerging technologies reshaping the industry. The discussion navigates the intricacies of investment in this sector, offering insights on identifying and accessing promising opportunities.

16:20 - 18:00

Networking Cocktail Reception
